Ø Two signal ports with full duplex design.

Ø Linear power amplification to effectively suppress inter-modulation and spurious emission.

- Ø Stable and improved signal transmission quality.
- Ø Compact size with stable performance.
- Ø Smart Automatic Level Control (ALC) ensures output level stable and adjustable continuously.
- Ø Auto Isolation check between service and donor antennas.
- Ø Smart mode to auto-adjust gain according to the isolation and signal level received by donor site.
- Ø Auto shut off function available for both uplink and downlink.
- Ø Simple installation with external AC/DC adapter.
- Ø Cost-effective for practical solutions.
