2 Two signal ports with full duplex design.

2 Linear power amplification to effectively suppress inter-modulation and spurious emission.

2 Stable and improved signal transmission quality.

2 Compact size with stable performance.

- <sup>2</sup> Smart Automatic Level Control (ALC) ensures output level stable and adjustable continuously.
- <sup>2</sup> Auto Isolation check between service and donor antennas.
- <sup>2</sup> Smart mode to auto-adjust gain according to the isolation and signal level received by donor site.
- <sup>2</sup> Auto shut off function available for both uplink and downlink.
- <sup>2</sup> Simple installation with external AC/DC adapter.
- <sup>2</sup> Cost-effective for practical solutions.
