2 Two signal ports with full duplex design.

2 Linear power amplification to effectively suppress inter-modulation and spurious emission.

2 Stable and improved signal transmission quality.

2 Compact size with stable performance.

2 Smart Automatic Level Control (ALC) ensures output level stable and adjustable continuously.

- 2 Auto Isolation check between service and donor antennas.
- 2 Smart mode to auto-adjust gain according to the isolation and signal level received by donor site.
- 2 Auto shut off function available for both uplink and downlink.
- 2 Simple installation with external AC/DC adapter.
- 2 Cost-effective for practical solutions.
